Thank you to everyone who completed our first survey regarding the impact of the COVID-19 virus pandemic on your organization from Friday March 13, 2020 to Monday March 16, 2020. In just over 72 hours we received over 300 responses!

As promised we are sharing what we learned from the incredible feedback we received.

Throughout the survey we offered the opportunity for our nonprofits to provide insights, information, ask questions and provide comments about the current situation. We received over 594 comments that included needs regarding staffing, fundraising, crisis communication, remote working, managing events, and so much more.

We have created a Covid-19 Resources for Nonprofits Section on our website.

Estimate the level of impact COVID-19 is having or could have on the programs, services, or general operations of the organization

From the responses received we know that the majority of nonprofits in our state are seeing a high impact on their organizations.
The following impacts for organizations were expected to be experienced:

- Cancellation of programs...
- Disruption of services to...
- Disruption of supplies or...
- Increased and sustained stress...
- Increased demand for...
- Budgetary implication...

From the responses received we know that services, fundraising, staffing, and budgets are going to be (if they have not already) been significantly impacted by the Covid-19 pandemic.

The number of months organizations have for cash reserves:

- Less than 1 month
- 1-3 months
- 3-6 months
- 6-9 months
- 9+ months

From the responses received we know that there are significant concerns for the long-term financial sustainability of our nonprofit organizations.
